

# RYAN FISHER, SOIL CONSERVATIONIST

Ryan has a Bachelor of Science degree in Wildlife and Fisheries Resources from West Virginia University, as well as a minor in Conservation Ecology, and is currently pursuing a Masters of Natural Resources through Virginia Tech. He currently works at the Cecil Soil Conservation District as a Soil Conservationist, reviewing Erosion & Sediment Control Plans and Agricultural Storm Water Management Plans.

Ryan has thoroughly enjoyed working with and serving the agricultural community through his position at Cecil Soil Conservation District. He is a lifelong resident of Cecil County, an avid outdoorsman, and has been active in his community through church, sports, the Mount Pleasant Sporting Club, scouting, and as a board member with the Cecil Land Trust. Ryan is passionate about conservation and believes that the proper stewardship of Cecil County's agricultural and natural resources will benefit generations to come. Ryan, his wife Courtney, and dog Nina reside in Colora.
